

## Tableting Capabilities

### Custom Tableting

Stellar Manufacturing provides tableting services for diverse industries and applications. We work closely with our clients to determine their specific manufacturing needs to create a customized program. Our broad experience and on-site quality control laboratory means you can feel confident your tablet meets expected density, hardness and dissolution properties. Whether your tablet is composed of difficult to handle materials or has a unique shape, Stellar Manufacturing can assist you with your production goals.

### Equipment
